EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy J. Monahan on 1/20/2004.

The application has been amended as follows:

In claim 49, line 3, after "wherein", insert, -- the wiper consists essentially of poly(ethylene terephthalate) fibers and--;

In claim 49, line 11, after "5.2", delete, "; and the wiper consists essentially of poly (ethylene terephthalate) fibers".

2. The following is an examiner's statement of reasons for allowance:
the present claims, as submitted, are patentable over JP-09-119067
because taken alone or in combination fail to disclose the claimed invention

regarding an article comprising a fabric wiper with all the stated components and properties regarding a continuous filament polyester yarn. The primary reason for the allowance of the claims is the Declaration under 37 C.F.R. 1.131 as submitted by applicant on 8/29/2003. This Declaration not only antedated the reference of record (JP-09-119067), but also showed the criticality of the temperature range of 180 to 300 degrees Fahrenheit for the heat set of the claimed invention fabric wiper. The prior art of record fails to disclose any rationale for combining references to produce the claimed invention with the stated limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
